

Norvent Dual Purpose Air Diffuser

- Suitable for marine and industrial applications
- Local control of both air direction and air volume
- Can be used to provide a jet of air, or by rotating sphere 180°, a diffused air flow is achieved
- Manufactured in three standard colours:
 - Ivory RAL 1013
 - White RAL 9010
 - Grey RAL 7035
 - Black RAL 8022
 - Other RAL colours available subject to minimum quantities
- Manufactures in two sizes D and E

Size	Nominal Capacity		Nominal Outlet Diameter	Minimum Depth of Duct	Dimensions (mm)			Fixing Holes			Code
	(m ³ /s) 125 Pa	(m ³ /s) 75 Pa			X	Y	Z	No.	Size (mm)	FCD (mm)	
D	0.045	0.035	76mm	102mm	143	92	181	4	5	159	D-DPAD
E	0.062	0.047	90mm	114mm	156	102	194	4	5	171	E-DPAD

The nominal capacities given are based on the two pressures we recommend, 125 Pa for normal systems, or 75 Pa for systems where quiet operation is required

ANA Marine Limited operate a policy of constant product evaluation and improvement and we reserve the right to make such changes as are found necessary to our products to maintain our position as one of the world's leading marine air conditioning equipment manufacturers. 12/2018
